

I54 IMPACT CRUSHER

The McCloskey® I54 impact crusher is designed to deliver high levels of productivity and efficiency. It is equipped with a large impactor allowing it to handle a wide range of materials effectively.

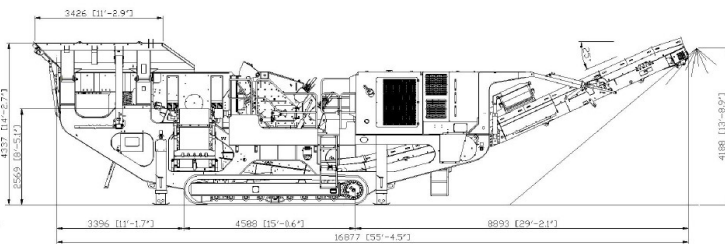

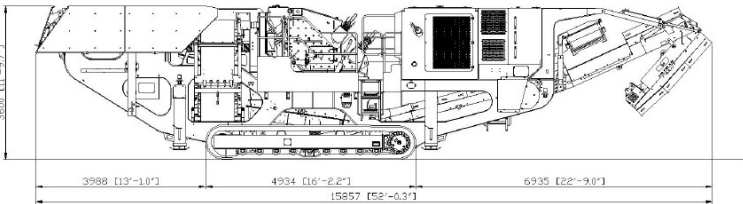

The I54 impact crusher has a large feed opening and a spacious crusher discharge area to handle large feed sizes, making it perfect for processing various types of materials, including hard rock, recycled concrete, and asphalt.

FEATURES

- ✓ 1200mm (48") diameter x 1350mm (53") wide Impactor
- ✓ 510 Hp (380kW) engine
- ✓ Integrated hydraulic folding hopper
- ✓ I-beam plate fabricated chassis construction
- ✓ Open chassis design for ease of maintenance
- ✓ Fast setup time
- ✓ Tracked
- ✓ Integrated hydraulic folding stockpiling conveyors.
- ✓ Vibrating feeder under crusher discharge

Available with various blow bar material options, the I54 is versatile and easily transported. It has a minimal setup time with integrated hydraulic folding hopper and stockpiling conveyors, maximizing on-site production time. The I54's versatility and upgraded design makes it ideal for some of the toughest applications worldwide, including asphalt recycling, concrete recycling, rock crushing, construction and demolition.

I54 TECH SPECS

Engine	380 kW (510 Hp)
Impact Rotor (Diameter x Width)	1200mm (48") x 1335mm (52.6")
Double Deck Grizzly Pre-screen	
Width (inside wearplates)	1204mm (47.4")
Length (overall)	2360mm (7' 8.8")
Pan Feeder	
Width	1164mm (45.8") x
Length	2695mm (106.2")
Hopper Volume	6.8m ³ (8.9 yd ³)
Stockpile Height	
Main Conveyor	4188mm (13' 8.9")
Side Conveyor	2569mm (8' 5.1")

TRANSPORT

Transport Height	3.60m (11' 9.7")
Transport Length	15.857m (52' 0.3")
Transport Width	3.00m (9' 10")
Weight*	52,900kg (116,624lb)

OPTIONS

Main conveyor variable speed control | Hopper Extensions | Overband Magnet | Water Pump and Dust Suppression System | Various Blow Bar Material Options | Work Lights | Belt Scale

*With magnet and dirt conveyor
